

Photos GUI StoryBoard

Farhaan Mohammad & Siham Darr

Login

A dark gray rectangular login form. At the top, the text "User Login" is displayed in a bold, blue, sans-serif font. Below this, the label "Username" is positioned to the left of a horizontal white input line. Centered below the input line is a blue rectangular button with the white text "Log in".

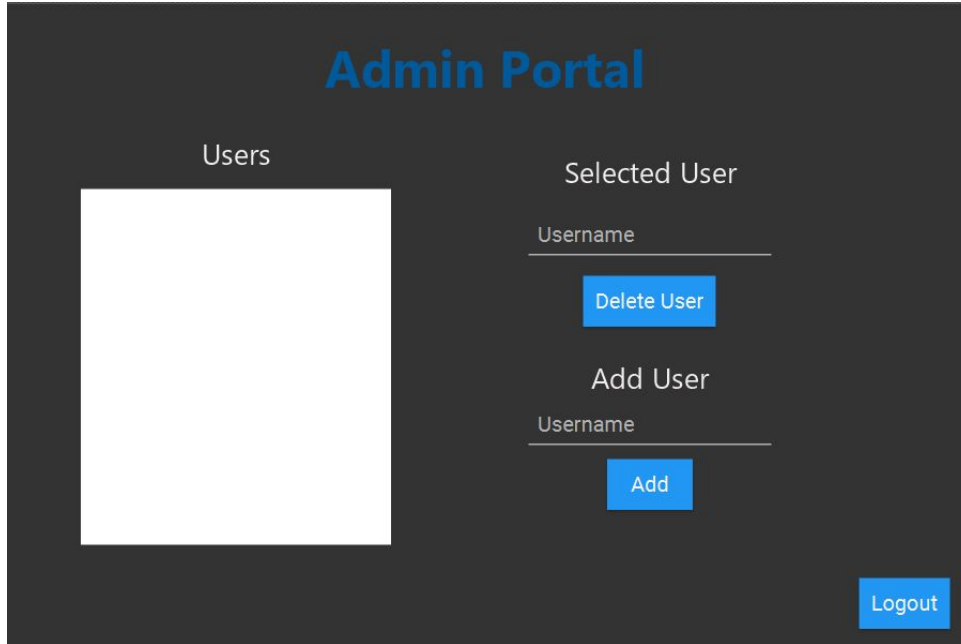

User Login

Username

Log in

- This page is where the user initially logs in to access the library
- Admins and Users login from the same area but have different splash screens after they log in
- Only if your username is correct you will be able to access the photo library.

Admin Portal

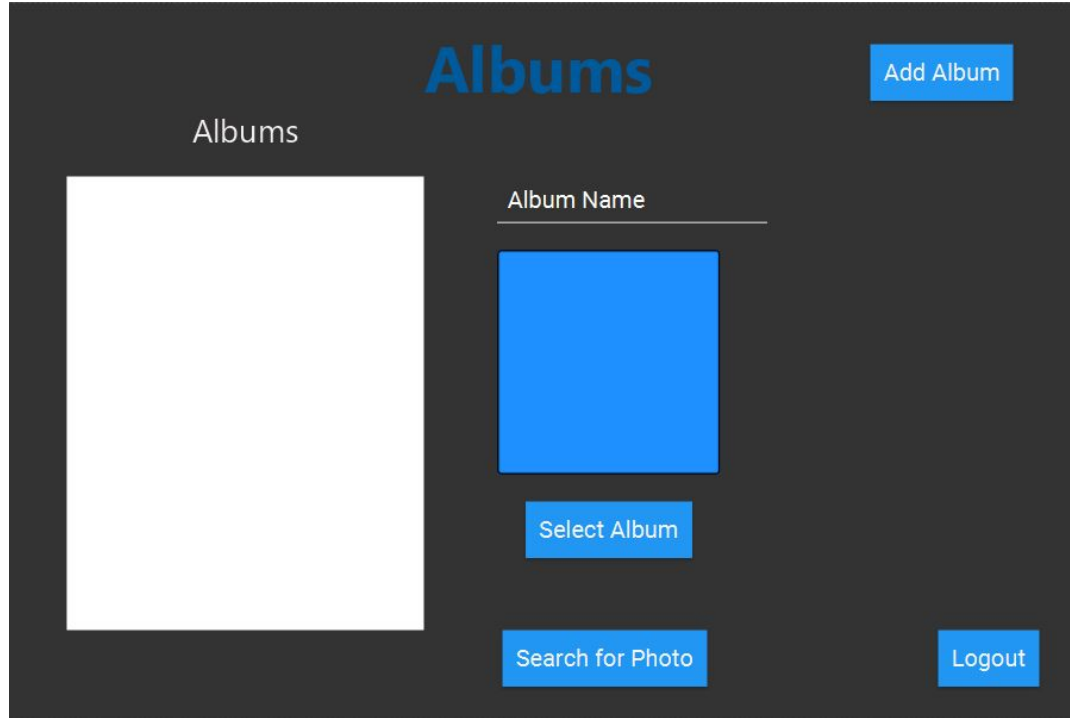

The image shows a dark-themed admin portal interface. At the top center, the title "Admin Portal" is displayed in a blue font. Below the title, the interface is divided into two main sections. On the left, under the heading "Users", there is a large, empty white square, likely a placeholder for a user list or image. On the right, under the heading "Selected User", there are two forms. The first form has a label "Username" followed by a horizontal line and a blue button labeled "Delete User". The second form also has a label "Username" followed by a horizontal line and a blue button labeled "Add". In the bottom right corner of the interface, there is a blue button labeled "Logout".

This is the admin splash screen

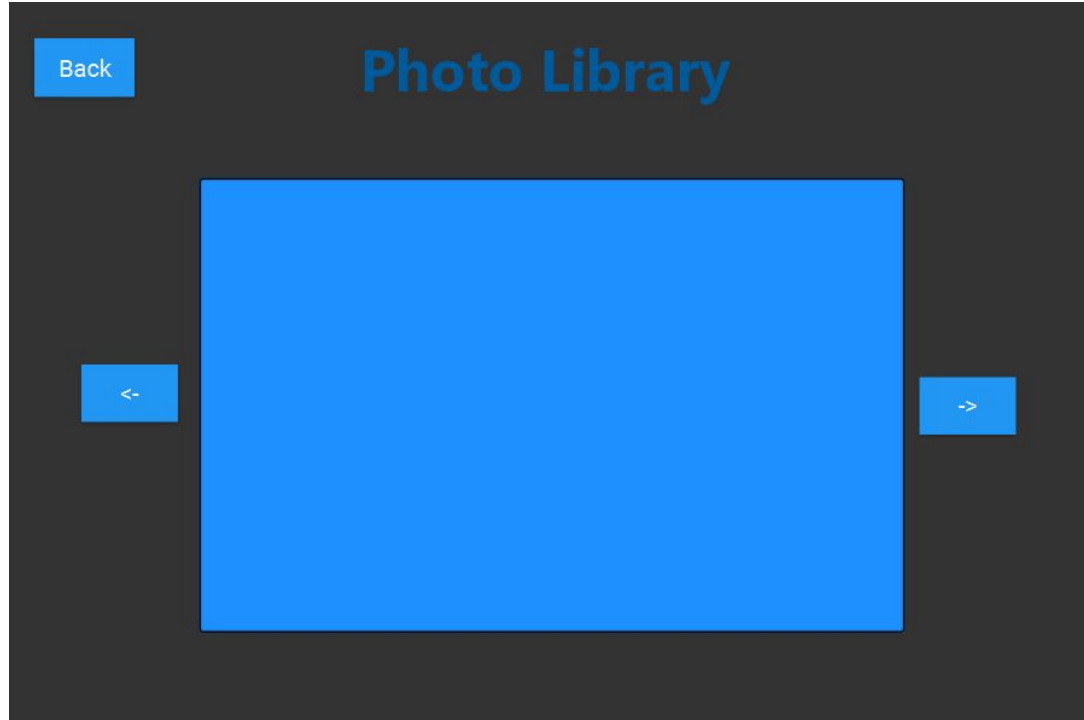

- Admins can add and delete users by entering the name and clicking the button
- There is also a user list

Albums

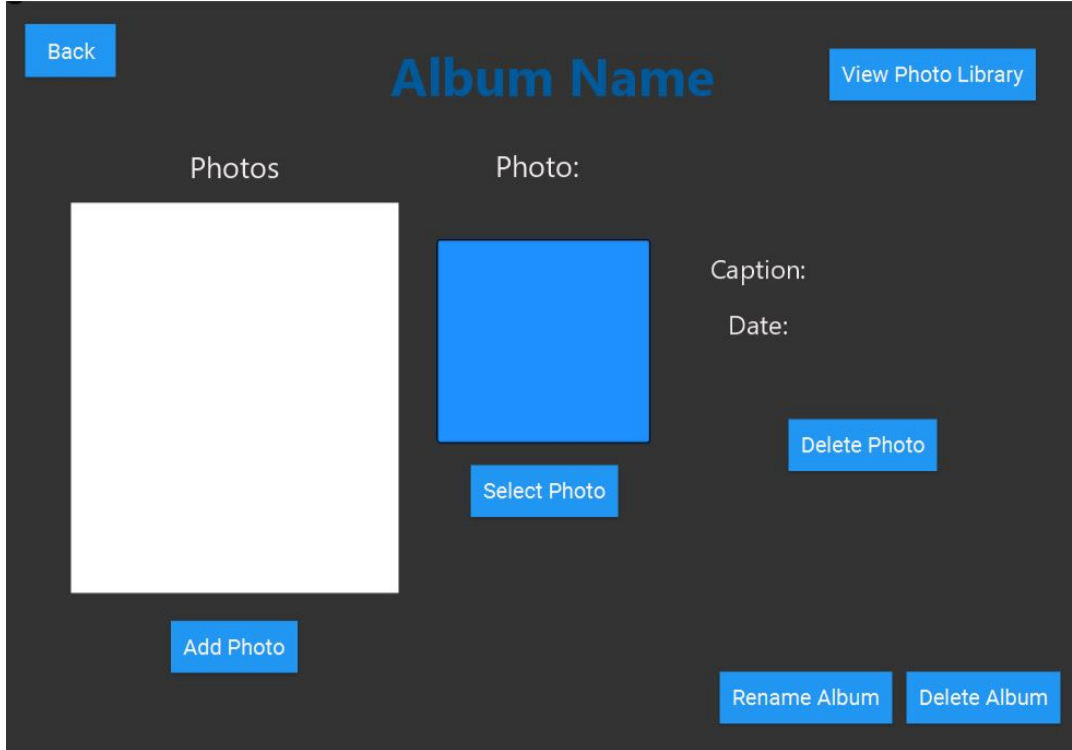

- Displays list of albums
- information about the album
- you are able to add an album
- select album is a feature that selects an album from a list and you are able to edit the contents of the album

View Photos

In this users are able to view all the photos from the selected album in a sequence and cycle through them by pressing the left and right arrows

Select Album Splash screen

The image shows a dark-themed UI for a photo album. At the top left is a 'Back' button. In the top center is the text 'Album Name'. At the top right is a 'View Photo Library' button. Below these, on the left, is a large white square labeled 'Photos' with an 'Add Photo' button at its bottom. To the right of the 'Photos' square is a 'Photo:' label above a blue square, with a 'Select Photo' button below it. Further right are labels for 'Caption:' and 'Date:'. Below the 'Caption:' label is a 'Delete Photo' button. At the bottom right are two buttons: 'Rename Album' and 'Delete Album'.

- You are able to delete photos and add photos displayed in an album
- You are able to rename and delete the albums
- You are also able to select the contents of a photo from the album

Delete Photo

- In this the user is able to move and copy the photos from an album to a different album
- You are also able to add tags
- Edit captions of the photos
- And remove tags and delete photos

Photo Search Splash Screen

The image shows a dark-themed splash screen for a photo search application. At the top left is a blue 'Back' button. The title 'Photo Search' is centered at the top in a large, bold, blue font. Below the title, on the left side, is a search form. It starts with the label 'Search:' followed by two input fields: 'Tag Name' and 'Tag Value'. Below these is a blue button labeled 'Search By Tag'. Further down are two date range inputs: 'From' and 'To', each with a calendar icon. Below these is another blue button labeled 'Search By Date'. On the right side of the screen is a large, solid blue square, which serves as a placeholder for a photo.

In this users are able to search for photos throughout all albums by using the name and the value of the tag or by date

With the photo being displayed on the side
